Part II. AGENDA for CJK SEOUL MEETING

0. Greeting, Review of Agenda

1. Confirmation of CGP's list of vg

1.1 Confirmation of CGP's list of 60 vg

- The following vg used to be in the list of 43 vg (@TPE);

  however, it is missing in the list of 60 vg shown on Sun., Nov. 13, 2016

  18 5E84 庄   838A 莊

- 18, NOT 17, new vg exist in the list of 60 vg.

--> 1a) Mistake: add the above vg to the list of 60 vg -> list of 61 vg

   1b) else ??

1.2 Confirmation of CGP's list of 261 vg

- KGP and CGP reviewed 258 vg @TPE

- Now CGP seems to analyze 261 vg.

- What are the 3 new vg?

2. Possible changes to the unresolved lists of 6 (or 7?) C variant groups

3. The status of vg containing 8 chars which were already used in TLD

4. The list a) of 56 vg:

- KGP willing to keep C vg; CGP willing to split C vg

4.1   need to decide which vg will be moved to list b) [split C vg]

   [i.e., K wants to split C vg; C wiling to accept K pos (split C vg)

4.2   need to decide which vg will be moved to list c) [keep C vg]

   [i.e., K willing to accept C pos (keep C vg); C wants to keep C vg]

5. Make lists a), b), c), and d) (hopefully, lists a) and d) will be EMPTY!)

6. [FYI] Fine tuning of lists b) and c) of vg might be needed in the near future

- The current analysis is based on K-LGR v0.4 (2016.03.18.) and

  C-LGR (2016.07.18.)

- A newer version of K-LGR (v0.6 ?) might be published?

- C_LGR_20160923 (or a newer version available?) need be used.

- If we analyze newer version(s) of K-LGR and/or C-LGR, there might be a slight

change in the number of vg to be reviewed by KGP and CGP.

7. Next CJK Coordination Meeting

8. Any Other Business
