ALAC Statement on the Initial Report on the Protections for Certain Red Cross Names in all gTLDs – Policy Amendment Process

The ALAC appreciates the opportunity to comment on the **Initial Report on the Protections for Certain Red Cross Names in all gTLDs – Policy Amendment Process**.

The ALAC has always taken the position that as a humanitarian organization, and one that has been regularly the target of those seeking to fraudulently attract donations, the Red Cross should be afforded the courtesy of having its various identifiers protected at the second level in gTLD domain names.

The current process recommends additional protection in this area and the recommendations are supported by the ALAC.
