

PURPOSE 3

Enable communication with and/or notification to the Registered Name Holder and/or their delegated agents of technical and/or administrative issues with a Registered Name

***Disclaimer:** This overview has been developed to facilitate the EPDP Team’s consideration of the concerns expressed and possible updates to the recommendations. However, this does not replace the EPDP Team’s obligation to review all input received in full and to indicate if any concerns in this overview have inadvertently been mischaracterized.*

Noted Concerns

Concern	Corresponding PCRT Comment #	Further Discussion Required?
Excessive wording – purpose should be simplified	7, 8, 9 (Blacknight, GoDaddy, Key-Systems, RrSG)	Yes/No
Delegated agents should be removed from this purpose	10, 11, 13 (Association of the Internet Industry, ISPCP, RySG)	Yes/No
Legal issues should be added to this purpose (note: one in favor of adding legal issues advocates for the deletion of administrative issues as this term is vague)	12, 14, 15, 19, 20, 21, 22, 24, 25 (Leap of Faith Financial Services Inc, IPC, Coalition for Online Accountability, INTA, MarkMonitor, MPAA, Microsoft, The Walt Disney Company, BC)	Yes/No

Registries/Registrars should endeavor to reach the RNH directly as the process of delegating an agent is sometimes done carelessly	16 (Internet Society India Chennai)	Yes/No
Billing issues should be added to this purpose	17 (GOVERNMENT OF INDIA)	Yes/No
Purpose should be modified since there may not be a tech/admin contact (and rec. 4 would essentially do away with collection of tech/admin contacts)	18, 23 (Tucows, SSAC)	Yes/No
This purpose should be deleted as a refinement of Purpose 1 would encompass communication to the RNH	27 (John Poole; Domain Name Registrant)	Yes/No
