

PURPOSE 6

Coordinate, operationalize, and facilitate policies for resolution of disputes regarding or relating to the registration of domain names (as opposed to the use of such domain names), namely, the UDRP, URS, PDDRP, RRDRP, and future developed domain name registration-related dispute procedures for which it is established that the processing of personal data is necessary

***Disclaimer:** This overview has been developed to facilitate the EPDP Team's consideration of the concerns expressed and possible updates to the recommendations. However, this does not replace the EPDP Team's obligation to review all input received in full and to indicate if any concerns in this overview have inadvertently been mischaracterized.*

Noted Concerns

Concern	Corresponding PCRT Comment #	Further Discussion Required?
Current language is too broad and should be streamlined/specified. (Note: proposed edits vary by commenter).	2, 5, 14, 16 (Blacknight, NCSG, i2Coalition, Government of India)	Yes/No
Undefined potential future processes should not be included in policy	4, 12, 15, 22 (Tucows, Association of the Internet Industry, ISPCP, RySG, Domain Name Rights Coalition)	Yes/No
The use of domain names, as opposed to just the registration of domain names, is specifically referenced within certain ICANN DRPs (UDRP, URS) and as such, should be considered within this purpose.	3, 6, 7, 8, 9, 17, 19, 20 (Coalition for Online Accountability, The Walt Disney Company, BC, DomainTools, Microsoft, ALAC, WIPO, IPC, INTA, MarkMonitor)	Yes/No

Establish policies should be added to the purpose	10 (GoDaddy)	Yes/No
Purpose is overly specific and should be simplified	11, 12, 20 (Key-Systems, RrSG, MPAA)	Yes/No
Addition of PDDRP and PRDRP to this purpose is unnecessary as access to personal information of domain name registrants is not needed to file a complaint.	18, 22 (Internet Governance Project, Domain Name Rights Coalition)	Yes/No
The current language is too limiting. By deleting the named policies, this would have the effect of broadening things to resolution of non-ICANN policy disputes	21 (Leap of Faith Financial Services)	Yes/No
This purpose is unnecessary if Purpose 1 is reworded properly.	23 (John Poole, Domain Name Registrant)	Yes/No
