Instructions:

Set forth above are all possible vote counts necessary to effectuate GNSO Council decisions that result from the consensus voting thresholds published in the ICANN Bylaws and GNSO Council Operating Procedures.

Where the threshold action notes a "Both" designation, the vote in that column cell that corresponds with the appropriate voting house composition must be combined with the vote total in a second column cell. Where a result indicates "One" the action can be triggered by only the vote count in the column cell that corresponds with the appropriate voting house composition. For example, to create an Issues Report would require [2 votes in the Contracted Parties House combined with 4 votes in the Non-Contracted Parties House] OR [4 votes from the Contracted Parties House or 7 votes in the Non-Contracted Parties House].

Unless otherwise specified, a motion or action affecting a Council Member (e.g., Extend Term Limit) does not require that Councilor to abstain.

The Secretariat shall announce the motion and then call the roll, varying the sequence randomly for each new vote.

Results shall be published by Councilor by House indicating number of votes by category: Yes, No, Abstain (with Reason).

Legend:

CPH = Contracted Parties House
NCPH = Non-Contracted Parties House
GOP = GNSO Operating Procedures
(3.3.1) = Three CPH Members; Three NCPH Members; 1 Voting NCA
(6.6.1) = Six CPH Members; Six NCPH Members; 1 Voting NCA
