## Working Group Self-Assessment

### Working Group: SCI Test

### Welcome & Introduction:

Thank you for accepting the invitation to complete this questionnaire concerning your experiences with the above-named Working Group (WG). Your Chartering Organization (CO) and other ICANN stakeholders are keenly interested in learning about the effectiveness of its chartered teams by asking participants for their assessments, perspectives, and insights concerning various performance aspects of the Working Group's operations, norms, logistics, decision-making, and outputs. The results of your feedback will be used to identify improvement areas in the guidelines, tools, methods, templates, and procedures applicable to Working Groups. Summary reports will be shared not only with your Working Group, but the larger GNSO stakeholder community.

<u>Confidentiality</u>: We will be asking you for identifying information to ensure that each response is valid. Your individual responses will not be accessible by anyone other than the ICANN Staff Administrator and they will not be disclosed or published in a way that could be matched to your identity.

If you have any questions or concerns about this self-assessment, please send an e-mail to: <u>participation@icann.org</u> and we will try to address them promptly.

This questionnaire is organized into four sections and should take less than 30 minutes to complete. Although most of the questions will ask you for an effectiveness rating (1-7 Scale), there will be an opportunity within each major section to add free-form text comments. You are encouraged to provide supplementary explanations or other supporting information that will help the Chartering Organization understand and interpret your input. Except for a few required identification and demographic questions, if there is any individual question for which you do not wish to provide a rating, a SKIP option is available.

You may begin now by clicking on the <u>Next</u> button below. You should be able to complete the questionnaire in one sitting; however, there is a button to <u>Save Page and Continue Later</u> if you are interrupted and need to resume at another time. Please note that the survey's internal <u>Back</u> option only operates for the most recent page completed. Please **do not** use your browser's Back button or you will lose answers.

In the next three sections, you will be asked to rate the EFFECTIVENESS (Scale 1-7) of several Working Group performance dimensions organized into <b>Inputs</b> -> <b>Processes</b> -> <b>Outputs</b> ; the s interpretation will be provided appropriate to each element.	scale	
Your Chartering Organization (CO) understands that, when answering survey questions, it may seem challenging to assign a single numerical rating to any team dimension in which a broad spectrum of experiences occurred. You are asked to think about the overall effort and provide the most honest and accurate representation in your best judgment. Learning and process improvement are the goals and there are no right or wrong answers. Recognizing that there may be important dynamics that simply cannot be captured in a single rating, you are encouraged to use the free-form comment box within each major section to provide supplementary explanations that will help the CO understand and interpret your feedback.		
THANK YOU and now on to Section 1
