3.1 Phase 1: Work Already Underway

The suggestion is to dispatch those items that were identified by the Working Party as already underway first and simultaneously with the implementation of those recommendations identified in the first batch. As some work is already being performed and/or recently completed it would seem logical to address these recommendations at the same time as those identified in the first batch. These also are organized into the three categories identified above, and then by high, medium, and low priority within each category.

PDP Improvements, Effectiveness, and Implementation

Recommendation 8	
Independent Examiner's	That Working Groups should have an explicit role in responding to
Final Recommendation	implementation issues related to policy they have developed.
Prioritization	High
Working Party	Agree but work is already done elsewhere.
Comments	The already approved Policy & Implementation Working Group
	recommendations cover this. Ongoing GNSO action item: ensure it
	happens in all future policy implementation efforts.
STATUS	CONSENSUS CALL DUE 04 MAY

Recommendation 14	
Independent Examiner's	That the GNSO further explores PDP 'chunking' and examines each
Final Recommendation	potential PDP as to its feasibility for breaking into discrete stages.
Prioritization	Medium
Working Party	Allow GNSO flexibility to determine when chunking (or phases) is
Comments	appropriate; needs refinement.
STATUS	CONSENSUS CALL DUE 04 MAY

Recommendation 15	
Independent Examiner's	That the GNSO continues current PDP Improvements Project
Final Recommendation	initiatives to address timeliness of the PDP.
Prioritization	High
Working Party	Already being done.
Comments	GNSO action items: ensure that efforts to improve the timeliness of
	PDPs continue.
STATUS	CONSENSUS CALL DUE 04 MAY

Recommendations 16	
Independent Examiner's	Recommendation 16: That a policy impact assessment (PIA) be
Final Recommendation	included as a standard part of any policy process.
Prioritization	High
Working Party	GNSO action items: i) Develop an analytical framework for assessing
Comments	policy impacts; ii) determine what should be measured and

	corresponding metrics. iii) Change the PDP Guidelines to make post- implementation policy effectiveness evaluation an ongoing rather than a periodic process and to include an assessment period at the start of the implementation process; iv) develop guidelines for how
	implementation of policies should be evaluated.
STATUS	CREATE NEW CHARTER FOR RECOMMENDATION 16 AND SEND

GNSO Council, Stakeholder Group, and Constituency Appointments, Members, Membership, Statements of Interest, Procedures, and Support

Recommendation 33	
Independent Examiner's Final Recommendation	That Stakeholder Groups, Constituencies, and the Nominating Committee, in selecting their candidates for appointment to the GNSO Council, should aim to increase the geographic, gender and cultural diversity of its participants, as defined in ICANN Core Value 4.
Prioritization	Medium
Working Party Comments	Working Party believes work is already being done but improvements/metrics need to be made in this area
STATUS	STAFF TO DEVELOP DRAFT CHARTER

Recommendations 24 and 25	
Independent Examiner's	Recommendation 24: That the GNSO Council and Stakeholder
Final Recommendation	Groups and Constituencies adhere to the published process for
	applications for new Constituencies. That the ICANN Board in
	assessing an application satisfy itself that all parties have followed
	the published process, subject to which the default outcome is that
	a new Constituency is admitted. That all applications for new
	Constituencies, including historic applications, be published on the
	ICANN website with full transparency of decision-making.
	Recommendation 25: That the GNSO Council commission the
	development of, and implement, guidelines to provide assistance
	for groups wishing to establish a new Constituency.
Prioritization	Medium
Working Party Comments	Recommendation 24: GNSO action items: i) Determine whether
	new Constituency application processes are clearly posted and
	easily accessible, ii) determine what steps are taken to ensure
	compliance with those processes and whether those steps are
	adequate; iii) determine if all Constituency applications, including
	historic ones, are publicly posted along with full transparency of the
	decision-making process; iv) determine whether or not there is a
	presumption that a new Constituency should be admitted if all
	requirements are met and if such a presumption is appropriate; v)
	determine what process the Board uses to evaluate new
	Constituency applications and whether they are ensuring process
	compliance; vi) make recommendations for any modifications to the

	process, if any.
	Recommendation 25: GNSO action items: i) Evaluate the
	effectiveness and accessibility of guidance for new Constituency
	applications; ii) recommend improvements to the guidance and the
	available assistance as appropriate.

Recommendation 30	
Independent Examiner's Final Recommendation	That the GNSO develop and implement a policy for the provision of administrative support for Stakeholder Groups and Constituencies; and that Stakeholder Groups and Constituencies annually review and evaluate the effectiveness of administrative support they receive.
Prioritization	Low
Working Party Comments	The Working Party believes that there is already a procedure for providing some forms of administrative support to Stakeholder Groups and Constituencies but that there is not a procedure for Stakeholder Groups and Constituencies to evaluate the effectiveness of the support provided. GNSO action items: i) Identify and review the existing procedures for Stakeholder Groups and Constituencies to obtain administrative support; ii) evaluate the adequacy & effectiveness of the existing procedures including whether additional forms of support might be beneficial; iii) develop recommendations for improvements to the procedures and new types of support, if any.

Working Group Performance, Participation, Meeting Tools, Self-Evaluation, Outreach, Volunteers, and Leadership

Recommendations 10 and	11
Independent Examiner's	Recommendation 10: That the GNSO Council develop criteria for
Final Recommendation	Working Groups to engage a professional facilitator/moderator in
	certain situations.
	Recommendation 11: That the face-to-face PDP Working Group
	pilot project be assessed when completed. If the results are
	beneficial, guidelines should be developed and support funding
	made available.
Prioritization	Medium
Working Party Comments	What does it mean to "engage"?; could be costly; develop criteria
	such as using an internal facilitator; should review existing pilot
	program already underway and that additional criteria be
	developed.
	The PDP Pilot Project has been done for two years. Need to
	evaluate. GNSO action items: i) Develop guidelines; ii) encourage
	support funding in the ICANN budget.
STATUS	STAFF TO DEVELOP DRAFT CHARTER

Recommendation 13	
Independent Examiner's	That the GNSO Council evaluate and, if appropriate, pilot a
Final Recommendation	technology solution (such as Loomio or similar) to facilitate wider
	participation in Working Group consensus-based decision making.
Prioritization	Medium
Working Party Comments	Working Party believes in continuous improvement; no specific tool
	is being recommended; tool must meet need that is currently not
	being met.
STATUS	STAFF TO DEVELOP DRAFT CHARTER

Recommendation 19	
Independent Examiner's	As strategic manager rather than a policy body the GNSO Council
Final Recommendation	should continue to focus on ensuring that a Working Group has been properly constituted, has thoroughly fulfilled the terms of its charter and has followed due process.
Prioritization	Low
Working Party Comments	Work is already being done.
STATUS	STAFF TO DEVELOP DRAFT CHARTER

3.2 Phase 2: High Priority Recommendations

These are the recommendations that were assessed by the GNSO Review Working Party as high priority. They were considered to have agreement by the Working Party to adopt them without modification. These recommendations could be placed in the first batch to be implemented within the first year and could overlap with the implementation of those recommendations that are considered to be underway / and or completed as a result of other activities, but which might need modifications to existing procedures. These also are organized into the three categories identified above, and then by high, medium, and low priority within each category.

PDP Improvements, Effectiveness, and Implementation

Recommendations 18		
Independent Examiner's	Recommendation 18: That the GNSO Council evaluate post	
Final Recommendation	implementation policy effectiveness on an ongoing basis (rather	
	than periodically as stated in the current GNSO Operating	
	Procedures); and that these evaluations are analyzed by the GNSO	
	Council to monitor and improve the drafting and scope of future	
	PDP Charters and facilitate the effectiveness of GNSO policy	
	outcomes over time.	
Prioritization	High	
Working Party	GNSO action items: i) Develop an analytical framework for assessing	
Comments	policy impacts; ii) determine what should be measured and	
	corresponding metrics. iii) Change the PDP Guidelines to make post-	
	implementation policy effectiveness evaluation an ongoing rather	
	than a periodic process and to include an assessment period at the	
	start of the implementation process; iv) develop guidelines for how	
	implementation of policies should be evaluated.	
STATUS	CONTINUE DISCUSSION IN PHASE 2	

Recommendation 31	
Independent Examiner's	That the GAC-GNSO Consultation Group on GAC Early Engagement
Final Recommendation	in the GNSO Policy Development Process continue its two work
	streams as priority projects. As a part of its work it should consider
	how the GAC could appoint a non-binding, non-voting liaison to the
	Working Group of each relevant GNSO PDP as a means of providing
	timely input.
Prioritization	Medium
Working Party	Ongoing work.
Comments	The Working Party encourages the ongoing work of the Consultation
	Group and suggests that it consider whether 'the GAC could appoint
	a non-binding, non-voting liaison to the Working Group of each
	relevant GNSO PDP as a means of providing timely input.' GNSO
	action item: Send a letter to the GAC expressing appreciation for the
	work of the Consultation Group, encourage continuation of the
	group and ask whether it might be worthwhile for the GAC to
	consider appointing 'a non-binding, non-voting liaison to the

	Working Group of each relevant GNSO PDP as a means of providing timely input.' (An alternative approach here may be to first test this
	with the GNSO GAC liaison.)
