Instructions:

This table was built to assist the Sunrise Data Review Sub Team in its analysis as to whether, and how, the Analysis Group survey results answer each of the final agreed Charter questions. Specifically, the Analysis Group survey gathered data to help answer the questions highlighted in <mark>yellow</mark>. Relevant survey data can be found in the following tabs/rows in the survey analysis tool, including, but not limited to:

- "Registries & Registrars" tab, row 56-57

When providing input, please note the tab title and cell number (if applicable) as reflected in the survey analysis tool.

Sunrise Charter Question 11:

(a) How effectively can trademark holders who use non-English scripts/languages able to participate in Sunrise (including IDN Sunrises)?
(b) Should any of them be further "internationalized" (such as in terms of service providers, languages served)?

Sub Team Member Name	Do the survey results help answer Sunrise Charter Question 11?	If yes, which sub question(s) do the survey results assist?	How do the survey results assist (e.g. "Registries responses in tab/cell X demonstrate Y")?	Tab Title & Cell Number (if applicable)
George Kirikos	Yes*	a,b	[asterisk with my usual disclaimer for "Yes", given the statistical deficiencies in the survey] Cell A7 of the Registry - Q29a tab indicated problems with TMCH and IDNs ("TCMH does not support transliteration of the trade marks from IDNs, which is one of the local long standing business ideas (such trademark owners could not register their TMs using transliteration"). Cell F56 of the Registries & Registrars tab indicates 1 registry operated received at least 1 IDN sunrise registration. Cell F57 indicated none of the 2 registries that responded offered special IDN-only registration periods. (very limited data!)	Registry - Q29a tab, cell A7 Registries & Registrars tab, cells F56, F57
Kristine Dorrain	Yes	a.b	I agree with George as to the data cited, and as to its extreme limitation.	

Sunrise Charter Question 11:

(a) How effectively can trademark holders who use non-English scripts/languages able to participate in Sunrise (including IDN Sunrises)?
(b) Should any of them be further "internationalized" (such as in terms of service providers, languages served)?

Maxim Alzoba	Yes	a,b	I agree with George's assessment of the data above. With the note about F57, Q24 was not clear enough (for example for TLD, which has IDN- only policy there was no need to have a special period of IDN, due to all registrations being IDN only, but in reality it was a perios with IDN registrations),	F56, F57
