

Instructions:

This table was built to assist the Sunrise Data Review Sub Team in its analysis as to whether, and how, the previously collected Sunrise data (between December 2016 and March 2018) answer each of the final agreed Charter questions.

- In the **Sunrise Tab** of the [analysis tool](#), Staff have included excerpts, as well as the relevant page/slide reference, from the previously collected data that staff believe may assist in answering the final agreed Charter questions. Summaries of the excerpts are included in Column B.
- The excerpts cited by Staff are nonexclusive; Sub Team members are welcome to download and reference the actual documents, linked from the **Source Tab**, to cite relevant information that may help answer the final agreed Charter questions.
- When providing input, please note the source name and page/slide number of the previously collected data.

Sunrise Charter Question 10:

Explore use and the types of proof required by the TMCH when purchasing domains in the sunrise period.

Sub Team Member Name	Do the previously collected data help answer this Sunrise Charter Question?	If yes, which sub question(s) do the survey results assist?	How do the data assist (e.g. "Information X in document Y demonstrate Z")?	Source Name & Page/Slide Reference
George Kirikos	Yes		According to the answer to Q15 of the January 2017 Deloitte responses to initial questions from TMCH Data Gathering Sub Team, 4% of the active TMCH records are not sunrise eligible (i.e. 96% are sunrise eligible), implying Deloitte is accepting the "proof of use" 96% of the time. (see discussion in my comments in Sunrise Preamble document about how this can be abused, i.e. de minimis or token marks)	January 2017 Deloitte responses to initial questions from TMCH Data Gathering Sub Team, Question 15
