# Introduction

---

- ⦿ This two-phased PDP was launched in February 2016, and the WG [charter](#) approved by the GNSO Council in March 2016.
- ⦿ The WG has completed its review of the Trademark Post-Delegation Dispute Resolution Procedure (TM-PDDRP), as well as the structure and operations of the Trademark Clearinghouse (TMCH), although several remaining questions have been deferred pending review of the Sunrise and Claims RPMs that are offered through the TMCH.
- ⦿ The GNSO Council approved a data collection exercise to obtain quantitative & anecdotal information from various groups to assist with the Working Group review of the Sunrise and Trademark Claims services offered through the TMCH.

# Introduction

---

- ⦿ ICANN Org commissioned Analysis Group, Inc. to develop and administer professional surveys in close collaboration with the Data Sub Team
- ⦿ Survey field period: 6 September - 5 October 2018.
- ⦿ Following a report from Analysis Group at ICANN63, the WG formed two Sub Teams – Trademark Claims Sub Team and Sunrise Sub Team – to analyze the survey data, previously collected data, and additional data sources to see if they can help answer the Sunrise and Trademark Claims charter questions.
- ⦿ At ICANN64 the Sub Teams are presenting to the WG the summary reports of their discussions and comments on the data.

# Trademark Claims Sub Team Data Review

  - 2nd row: a very high-level summary of whether each data set had relevant information;
  - 3rd row: a very high-level summary of Sub Team members’ comments and discussions;
  - “Not Applicable” refers to the situation where the data reviewed do not really assist in answering the Charter question; and
  - Charter questions with no data assisting in answering are colored in orange.
  
- ⦿ This information is provided in much greater detail in the Summary Tables distributed prior to ICANN64.
