

Instructions:

This table was built to assist the Trademark Claims Data Review Sub Team in its analysis as to whether, and how, the Analysis Group survey results answer each of the final agreed Charter questions. Specifically, the Analysis Group survey gathered data to help answer the questions highlighted in yellow. Relevant survey data can be found in the following tabs/rows in the [survey analysis tool](#), including, but not limited to:

- “Registries & Registrars” tab, row 59-76

When providing input, please note the tab title and cell number (if applicable) as reflected in the survey analysis tool.

Claims Charter Question 2:

If the answers to Claims Charter Question 1(a) is “no” or 1(b) is “yes”, or if it could be better: What about the Trademark Claims Notice and/or the Notice of Registered Name should be adjusted, added or eliminated in order for it to have its intended effect, under each of the following questions?

(a) Should the Claims period be extended - if so, for how long (up to permanently)?

(b) Should the Claims period be shortened?

(c) Should the Claims period be mandatory?

(d) Should any TLDs be exempt from the Claims RPM and if so, which ones and why?

(e) Should the proof of use requirements for Sunrise be extended to include the issuance of TMCH notices?

Sub Team Member Name	Do the survey results help answer Claims Charter Question 2?	If yes, which sub question(s) do the survey results assist?	How do the survey results assist (e.g. “Registries responses in tab/cell X demonstrate Y”)?	Tab Title & Cell Number (if applicable)
George Kirikos	Yes*	a,b,c,e	[asterisk besides Yes*, for the same reasons as prior documents] F60-61 and G63-64 of the Registries&Registrars tab demonstrate that overall, Claims should be shortened or eliminated entirely (outweighing those who want it to be longer), and not extended, due to the negative impacts experienced (enumerated in the Registry-Q26 tab, cells B8-14, in Registries&Registrars tab, cell G74), and also on tab Registry-Q28). Elimination or shortening of the Claims was felt to have no impact on cybersquatting (Registry Q28 tab, cells B5-7, B9-11). 			I didn't find any relevant data for (d), but for (e) ("Proof of Use") this is hinted at being desirable in some of the answers in cell G74 ("there were dictionary words which could have been legitimately registered by a customer but were not" and "too many generic terms are in the TMCH")	Registry Q28 tab, cells B5-7, B9-11
Kristine Dorrain	yes		I agree generally with George, but wanted to add another reference. Ry/Rrs note that some TLD types have different needs (some may be restricted such that claims is merely an added headache). This section of the survey didn't get too specific into sunrise vs claims, but we have people in the WG and/or community who can speak to this and we should learn what we can from them. One of the reasons claims (and sunrise) made it into the original tapestry is because many Rys said they'd do them anyway and the community wanted them somewhat standardized.
