Where ICANN org said it would undertake actions or improvements (i.e., "develop a better report" or "will improve [planning documents]"), how should the SOPC and SCBO monitor or ensure accountability?	This seemed to be a broad topic that both the SCBO and SOPC would be interested in.	What steps can the community undertake wth respect to accountability.	John McElwaine	Yes
How can the SOPC and SCBO help ICANN org develop better Fiscal Year Budgets and Operating & Financial Plans?	ICANN org plans to improve the planning documents continually and will evaluate these suggested improvements for future planning cycle.	Develop guidance for ICANN Org concerning the level of detail and data does the SOPC and SCBO want to be able to access and review.	John McElwaine	Yes
The community need to better understand how the new Project Management Framework will enable better prediction of staff levels and budgeting for consultants, facilitators or subject matter experts	Throughout ICANN org's response there are references to a new Project Management Framework; however, not much other detail is provided.	A better understanding of the Project Management Framework.	John McElwaine	Yes
