

Maria Otañes: Welcome to the Customer Standing Committee (CSC) Meeting 7 on 15 February 2017 @ 20:00 UTC

Byron Holland (ccNSO): Will call in in one minute

Byron Holland (ccNSO): I am on the call and can hear you

Byron Holland (ccNSO): I will call back in on another line

Elise Gerich: Ah, thanks for the update

Trang Nguyen: Could we please have scrolling right?

Maria Otañes: Should be scrollable now

Trang Nguyen: Thank you!

Elise Lindeberg GAC: I had some comments from some GAC members - I will send them tomorrow to the CSC list

Elaine Pruis: a little louder please Jay

Jay Daley: And a reference to the text in the SLA that caused this issue please

Kal Feher: satisfactory.

Jay Daley: I agree - satisfactory and these two issues have been mentioned before

Jay Daley: Pretty much the same as the last time

Kal Feher: +1 to Jay and Byron

Elise Lindeberg GAC: agree

Lars-Johan Liman (RSSAC): Ugh! Me?! Ayayay. That means I have to remember what I suggested ... ;-)

Jay Daley: Thanks Trang

Trang Nguyen: That was Ria with the update on the repository of action items. She gets the credit for that work. :)

James Gannon [GNSO-Liason Non Registry]: Yeah no feedback from me as it was pretty comprehensive ok for me

Jay Daley: I prefer Tuesday 18th

Lars-Johan Liman (RSSAC): I suggest Tuesday 18!!

James Gannon [GNSO-Liason Non Registry]: Anytime later that week works for me

Lars-Johan Liman (RSSAC): OK 19 is fine!

Jay Daley: Actually 17th for most of you is 18th for me

Lars-Johan Liman (RSSAC): 19!! :-)

James Gannon [GNSO-Liason Non Registry]: I would like to move

Jay Daley: Happy with 19th for you

Kal Feher: It's the 18th for me as well

Elise Lindeberg GAC: fine with all the dates

Elaine Pruis: repeat the time please?

Elise Gerich: OK with me

Kal Feher: fine for me

Jay Daley: I am

James Gannon [GNSO-Liason Non Registry]: I will be

Kal Feher: I am unlikely to be there

Lars-Johan Liman (RSSAC): Me too

Elise Lindeberg GAC: also

Elaine Pruis: 30% chance

Kal Feher: yes.

Elaine Pruis: yes

Lars-Johan Liman (RSSAC):I \_will\_ be there. It came out wrong with Kal's comment above ... ;-)

James Gannon [GNSO-Liason Non Registry]:Holiday but works for me

James Gannon [GNSO-Liason Non Registry]:Yes long term planning is best

James Gannon [GNSO-Liason Non Registry]:I will not arrive until the 15th and will be in the SSR2 RT meeting for that full day unfortunately

Jay Daley:I think GNSO is Elaine/Kal

Elaine Pruis:i'm fine with the suggestions for me

Kal Feher:please note that I will not arrive until Sunday evening! Elaine sorry but you are on your own

Jay Daley:I should be able to come

Jay Daley:to GSNO

Elaine Pruis:great

Elise Lindeberg GAC:Very good - I think we can make the presentation with less slides, - and the core should be to explain what we actually monitor and review

James Gannon [GNSO-Liason Non Registry]:Can I suggest we dont include the Special IFRT as upcoming work

Elise Lindeberg GAC:agree - one smaller verion for the GAC;)

Elise Lindeberg GAC:we are boring..

Elise Lindeberg GAC:the GAC that is:))

Elise Lindeberg GAC:sure;)

Kal Feher:note James' comment

James Gannon [GNSO-Liason Non Registry]:I would like the Special IFRT removed if possible

James Gannon [GNSO-Liason Non Registry]:Bad omens =)

Elise Lindeberg GAC:I have given a rather lang report to the GAC last week, - so that a presentation in Copenhagen can be quite trimmed down

Jay Daley:I gave my comments previously

Elise Gerich:one suggestion from Jay was to offer some sort of give-away for people to respond to the survey

Bart Boswinkel:Document is scollabel

Jay Daley:Indeed

Jay Daley:Apologies - I need to drop off the meeting now - urgent issue come up

Maria Otnes:This is the first version

Elise Lindeberg GAC:Have you mapped it against the terminology in the CSC mandate

Elise Lindeberg GAC:sorry - I fell out just as my comments was posted

Kal Feher:support four for now.

Kal Feher:ah ok. thankyou. I had not seen that line

Kal Feher:yes thank you

Elise Gerich:Thank you all, and good-bye

Elise Lindeberg GAC:thank you :)

Kal Feher:thank you

Lars-Johan Liman (RSSAC):Thank you all! See you in CPH!

Elaine Pruis:thank you
