Re: Recommendation 4 of the IFRT

Dear Frederico and Tomslin,

I am pleased to confirm that following your letter and the additional explanation the CSC fully supports your recommendation 4 recommending the removal of the statement "*The relevant policies under which the changes are made shall be noted within each monthly report*" from Article 7 section 7.1 (a) in the IANA Naming Function Contract.

In addition, we are very pleased to note that you recommend to adjust section 18.2 a (i) and (ii), which both describe the same process.

Let me end with expressing that we as CSC really appreciated cooperative, effective and efficient spirit of our interactions to date.

On behalf of the CSC

Lars-Johan Liman, Chair of CSC
