

Proposal for inclusion Latin script letters in the next version of MSR

Latin Generation Panel (Latin GP) has finished the processing of languages using Latin script. Latin GP has processed:

- 180 languages with EGIDS = 1-4
- 30 languages with EGIDS = 5 (Every language has more than 1,000,000 speakers)

Latin GP has found support for six Code Points not in MSR2. The Code Points are listed in the table below with supporting language and link to reference material.
