## **1. Administrative Decisions:**

- 1.1. NBGP to submit the script specific LGR proposals as they get ready without waiting for other script proposals. Given cross script variant analysis is completed for all the relevant scripts
- 1.2. Cross-script variant analysis to be taken on priority
- 1.3. All participants in the Nepal F2F meeting to join the NBGP.
- 1.4. To hold fortnightly calls on second and fourth Tuesday of every month at 12:30 UTC i.e. 18:00 IST
- 1.5. NBGP Members are encouraged to join NBGP Whatsapp group.
- 1.6. Make an effort to get inactive members active and update the panel for their status
- 1.7. Jay Paudyal to prepare a short presentation about NBGP and LGR process and share the same with the NBGP panel members
- 1.8. Jay Paudyal to co-ordinate with NBGP members for on-boarding process of linguistic experts as given in Point 4
- 1.9. Harish Chowdhary to conduct readout sessions at relevant forums and generate awareness in the community about the NBGP activity in order to solicit more participation
- 1.10. NBGP to request ICANN to include NBGP Members in the "String similarity assessment panel"
- 1.11. Timeline finalization for Tamil, Telugu, Gujarati, Malayalam, Odia to be done during fortnightly calls

## **2. Document related decisions:**

- 2.1. Anuswara and Chandrabindu to be separate tags
- 2.2. Consider the case of Aa Vowel Sign + Nukta for both Rules and Variant for Santhali
- 2.3. See if additional Nukta characters are needed to be permitted
- 2.4. Document listing key resource persons and consultants for each of the scripts: Identified in a separate document named as Annexure A
- 2.5. Document identifying the languages as per EGIDS scale
- 2.6. Akshat to share: MSR-2, Draft Devanagari LGR, Links to short documents describing the LGR process, Variants and Whole label evaluation rules as given by the Integration panel on the NBGP list for Nepali community for their detailed analysis
- 2.7. Dr. Sarmad to host the presentations during Nepal F2F on ICANN site in the repository. Akshat to share the presentation file as well as the link with the NBGP list.
- 2.8. Akshat to do cross-script variant analysis for all the scripts – specifically for Many to many sequences
- 2.9. Cross-script Variants to be categorized in two:
  - 2.9.1. Mandatory variants proposed by NBGP as a part of variant set e.g. Aa matra+Nukta as variant with Aa matra (Homoglyphs and Homographs)
  - 2.9.2. Additional confusingly similar cases suggested by NBGP as a part of Annexure which may be indicated by NBGP to be taken into consideration by the “String similarity assessment panel”

## **3. Timelines:**

- 3.1. On-boarding process of new members by 15<sup>th</sup> June '17 – By Jay
- 3.2. Cross-script variant analysis: Single Characters on MSR: 15<sup>th</sup> July '17 – by all Key resource persons for respective scripts
- 3.3. Cross-script variant analysis: Many to many characters: 15<sup>th</sup> July '17 – by Akshat
- 3.4. Cross-script variant analysis: Dispute resolution: 15<sup>th</sup> August '17 – By panel (among script pairs)
- 3.5. Finalization of Devanagari LGR with additional languages and Cross script variants: 30<sup>th</sup> August '17
- 3.6. Finalization of Gurumukhi, Bengali and Kannada LGRs: 30<sup>th</sup> Sep. '17
