The RDS-WHOIS2 Review Team undertook the following during this session:

1. **Welcome, roll-call, SoI updates**

There were no updates to Statements of Interests.

2. **ICANN62**

ICANN org presented the draft engagement session slides and received input from the review team on updates needed. Each subgroup presentation layout included: a context setting slide, a slide on major findings, a slide on issues called out by the subgroup and a slide on recommendation(s) (if any).

Decisions Reached: The slides should be considered as guidance. No time for detailed presentation at engagement session.

Action Item: Subgroup rapporteurs to send any edits they may have on engagement slide-deck by 20 June, 15:00 UTC.

3. **Subgroups Status Update**

Three subgroups were invited to provide an update on their progress:

Rec #3 – Outreach: Alan Greenberg provided an update on the latest subgroup findings and recommendations.

Decision Reached: Rec. 2 to remain and list outreach targets (including GDPR data subjects) and importance of cost effectiveness.

Action item: Alan to update Rec. 2 in subgroup report to reflect above agreement; ICANN Org to update this recommendation on the engagement session subgroup's slide to match updated subgroup report.

Rec #5-9 – Data Accuracy: Lili Sun provided an update on the latest subgroup findings and pending discussions within the subgroup.

Action Item: Lili Sun to update subgroup draft report based on the three main problems were raised:
1) Lack of policy definition of 'Accuracy' (Refer to SAC058 for definitions used by ARS)
2) Identity theft as envisioned by the first review team is still an issue that has not been addressed by this review team
3) The problem that WHOIS users cannot tell to what level WHOIS data has been verified or when.

Subgroup 5 – Safeguarding Registrant Data: Alan Greenberg provided an update on the latest subgroup report, asking input from the review team on submitted recommendations.

Action item: Alan to update safeguarding registrant data subgroup report based on discussions; ICANN Org to update engagement slide (as appropriate) to match updated subgroup report.

4. **Face-to-Face Meeting #3**

In the interest of time this discussion was moved to next plenary call.

5. **Plenary Call Schedule**

Action item: ICANN org to send out a doodle to the review team to confirm availability for a plenary call on 2 July 2018 – 15:00 UTC.

6. **A.O.B.**

Consensus reached on decisions/action items: Yes
