RE: SSR2 Review Team Additional Funding Request

Dear Russ, Denise, Eric, and Laurin,

On 7 November 2019, the ICANN Board approved US$250,000 in additional funding to complete the second Stability, Security, and Resiliency Review (SSR2). This action was in response to the SSR2 leadership request on 9 October 2019 for the additional funding. Details of the process that was followed in response to the request for additional funding were shared with the SSR2 Review Team during its public meeting with the Board Caucus Group on 5 November 2019 and are described in the Board Resolution of 7 November 2019.

The Board looks forward to receiving the SSR2 team's recommendations when your work is complete.

Sincerely,

Maarten Botterman
Chair, ICANN Board of Directors
