The SSR2 Review Team undertook the following during this session:

1. **Welcome, roll call, SOI updates**

See attendance record above. No SOI updates provided.

2. **Review the subteam status document - determine areas where progress is slow and agree on next steps**

Russ provided an overview of the status of each of the subgroups based on the status document, and asked team members for an update on 23 and 31. No team members were able to provide an update on these, so Russ will follow up with the rapporteurs.

Action item: Russ will follow up with Zarko as the rapporteur of subteams 23 and 31 to obtain a status update on the progress of those recommendations.

3. **Ensure ICANN org responses to SSR2 questions (see emails to list) are being considered in subteam work**

This agenda item was not discussed.

4. **Review elements of 'Risk' text here**

Recommendation 4: The team discussed recommendation 4 text (p33). The team agreed in general with the text, with proposed amendments to 4.1 to make sure this text is not dependent on implementation of the rest of recommendation 4. Laurin agreed to make the proposed change.

Action item: Laurin to update recommendation 4.1 to reflect the discussions on the call.

The team also discussed the following recommendations:

Recommendation 29: Kerry-Ann provided an overview of the text for recommendation 29 (p68). The team generally agreed to the text, with a minor change to 29.4, which was made on the call and is reflected in the [document](#).

Recommendation 30: Matogoro provided an overview of the proposed changes to the text, as noted in the document [here](#). No team members objected to the proposal.

5. **Review available 'abuse' subteam text**

Abuse team members confirmed there is no text yet ready for team member review. As such this agenda item was not discussed further.

6. **AOB**

None raised.

7. **Confirm action items / decisions reached**
