Dear All,

As part of the work being done for At-Large Community Onboarding, the community onboarding members as part of the Outreach and Engagement SC have created a first draft presentation "Key Policy Issues of the At-Large Community".

Its based on the Why end users should care Policy Document created last year.

The approach is for three slides for each topic:

- * Policy Summary, along with any informational video links.
- * Why should I care?
- * At-Large Involvement with links to the comments, the relevant Working Group, maybe more informational links to learn more about the issue.

The slides feature a main menu whereby one can jump to any policy issue.

Slides also have a hyperlink back to the main menu so persons can move around the slidedeck.

The draft presentation can be found at

<https://community.icann.org/display/atlarge/Key+Policy+Issues+of+the+At-Large+Community>

Comments on the draft presentation are welcomed.

Regards,

Dev Anand
