Notes

UA Discuss Group Call

Wednesday, 2015-11-18 23:00 UTC

Attendance	Hamish, Lars, Tony, Pensri, Dennis, Don, Gwen, Mark, Rich, Kal, Alina, Ram (late)	Apologies: Ram, Brent, Dusan
IGF	Tony reported the IGF felt good. There was some confusion in the community around the word 'Acceptance', with some thinking it might mean Accessibility, and others that it might mean Access. IGF Report available at * (See below for link)	Gwen/Don: Develop an FAQ for Wiki page that outlines what UA is and what it's <u>not</u>. Also, include this in introductory phase of presentations. ETA: January 2016.
Hackathon	The UASG is not ready at the moment to launch its own Hackathon, but may be in the next financial year. The UASG is happy to participate in an ICANN sponsored Hackathon should one occur. When we are ready to run an Hackathon like event, topics to consider include: - Get Libraries of popular programming languages fixed. - Get core application sorted – like PostFix, SendMail. - 'Go Hack Yourself' – get your own apps UA ready. - Organise a 'Day of Fixing' for UA issues. But these are all ideas for the future.	
EAI	Members of the UA community are encouraged to identify organisations working on EAI	All to advise Brent of EAI activities that you know of.

Universal Acceptance

	(Email Address Internationalisation) and get people introduced to Brent who is coordinating EAI work.	
Help Wanted	Only one application received by the deadline, so deadline extended to the end of November.	
Community Engagement	Community Engagement Model outline circulated to small group participants (Don, Tony, Pensri, Christian). They expect to have a first call next week. WITSA meeting in October 3-5 2016 in Brasil expected to be an excellent venue for raising awareness	
Community Outreach	- ISOC – Don to try again. - MAAWG – Christian to report - The DNA – Jordyn Buchanan the liason. - GSMA – Tony to help develop relationship	Don & Tony to talk to find ways of engaging with the GSMA.
Registry/Registrar Guidebook	Dennis went through the Registry/Registrar industry presentation from Dublin. Verisign and GoDaddy are working together to get a first draft of a structure for an industry guidebook.	Dennis & Rich to have first draft finished by January 14.
Certified Senders Alliance	Lars reported back on the Certified Senders Alliance meeting. - People at the meeting were aware of UA issues - Most of the participants are waiting for the larger parties to sort out EAI - Participants are looking for good documentation and recommendations that they can use to evaluate and	Don to provide link for people to subscribe to UA Discuss: **http://tinyurl.com/ua-discuss**

	configure their own systems Also of concern is that Spamhouse.org is developing a TLD reputation index which may result in some spam filters blocking entire TLDs.	
AoB	Don's looking for someone who can do Q&A for the African Language Group meeting. 2015-11-26 @ 14:00 in Point Noir, Congo.	
Next Call	December 2 – Same time, same place. Agenda items welcomed.
