

Annex 12

- The CCWG-Accountability will consider the following as it develops the FOI-HR:
- Consider which specific Human Rights conventions or other instruments, if any, should be used by ICANN in interpreting and implementing the Human Rights Bylaw.
- Consider the policies and frameworks, if any, that ICANN needs to develop or enhance in order to fulfill its commitment to respect Human Rights.
- Consistent with ICANN's existing processes and protocols, consider how these new frameworks should be discussed and drafted to ensure broad multistakeholder involvement in the process.
- Consider what effect, if any, this Bylaw would have on ICANN's consideration of advice given by the Governmental Advisory Committee (GAC).
- Consider how, if at all, this Bylaw will affect how ICANN's operations are carried out.
- Consider how the interpretation and implementation of this Bylaw will interact with existing and future ICANN policies and procedures.
