Comment Period Closes: 11 February 2020

The Registrar Stakeholder Group (RrSG) does not have any significant issue with the Proposed Dates for ICANN Public Meetings 2024-2028 and Revised Dates in 2022. However, we do anticipate that ICANN88 ending the day before Good Friday in 2027 may be problematic travel wise for participants from countries for whom that is a public holiday. As the meeting is already later in the month than usual, presumably due to IETF meeting dates, ICANN may want to consider moving the meeting forward to the last week in February.
