GNSO Guidance Process Working Group Working Session — Introduction & Overview

Mike Silber, Working Group Chair
13 June 2023

Agenda

1. Welcome
2. Overview of the GGP
3. Review of the Draft Recommendation Guidance
4. AOB

Overview of the GGP

Overview

- In 2022, the GNSO Council approved the GNSO Guidance Process (GGP) to provide additional guidance to support the eventual implementation efforts relating to the Applicant Support Program, as recommended in the New gTLD Subsequent Procedures (SubPro) Final Report.
- The GGP is not intended to modify any SubPro recommendations or implementation guidance, and not to develop any new policy.
- At the ICANN77 working session, the Working Group will review recommendation guidance relating to data/metrics and measures of success, and creating a methodology for allocating financial support where there is inadequate funding for all qualified applicants.
- The Preliminary Recommendations Guidance Report will be posted for public comment in July, the Working Group will analyze the public comments, finalize the Report, and submit it to the GNSO Council not later than December 2023.

GGP Applicant Support Timeline

Meetings	Tasks
05 and 19 December 2022	Work Plan & Timeline development – ***Submit to Council 05 December or not later than 09 January***; Finalize Tasks 1 & 2
