**Status/Health Rationale:**

- This project has recently started with a Status of “On-Schedule” and Health of “On-Target”.

**Current Activities:**

- Continued analysis of Dispute Resolution eligibility requirements (e.g., standing) for IGOs.
- Continued analysis of jurisdictional immunity as it relates to the UDRP, and in the context of the IGO-INGO Curative Rights WG’s Recommendation #5.

**Planned Activities:**

- Staff to document deliberations to date and prepare a preliminary draft of the Initial Report.

**Open Issues, Risks & Mitigation Plan:**

- Scope of WT’s charter addendum may be too restrictive to develop a solution that is mutually agreeable to all affected parties. WT Leadership may consult with the GNSO Council if the addendum proves to be a hindrance to the WT achieving its desired outcomes.
- The WT may require additional legal advice about the feasibility and implications of including an arbitration element, should its deliberations indicate agreement on this alternative. Should the need arise, a request will be sent to the GNSO Council.

**Completed in prior period(s):**

- GNSO Council liaison to the WT provided an update to the GNSO Council at the May 2021 Council meeting, noting the WT is struggling with the scope of charter addendum, but making progress on deliberations of the policy topics and encouraged by the constructive participation.
