Monitoring – Monthly Reporting

CSC | Customer Standing Committee

- PTI publishes a <u>monthly report</u> with measurements based on summarized performance percentages.
- The report is made available prior to the CSC's monthly call so that the CSC can discuss the naming services performance with PTI

Summary Performance Percentage

Monitoring – CSC Monthly Reporting

- The CSC produces a monthly report based on the following rankings:
 - <u>Excellent</u> PTI's performance over [month] was 100 %. PTI met all [x, currently 64] met all of the currently defined thresholds.
 - <u>Satisfactory</u> PTI's performance over [month] was [y] %. PTI met [z] of the [x, currently 64] thresholds. Missed thresholds were satisfactorily explained and the CSC has determined that these exceptions were no cause for concern. No persistent problems were identified and no further action is needed.
 - <u>Needs Improvement</u> Performance needs improvement due to a) severe degradation in meeting the thresholds from previous months, b) a trend in complaints that indicate a persistent issue to be resolved, and c) a negative trend in compliance to the thresholds over several months.
- The CSC Findings % summarizes PTI performance as the percentage the rating
 of the thresholds that were met, for example 98.4%, implies 63 of 64 thresholds were met.
- If a SLA was not met, explanation is expected and needs to be understood by CSC

Complaints & Performance Issue Remediation

- <u>The CSC's Charter</u> prevents it from becoming involved in individual complaints, though it reviews complaints that have been escalated to management to see if there are any trends.
- The CSC's role is limited to:
 - monitoring PTI's overall complaint management system
 - identifying 'systemic or persistent' issues
- The <u>remedial action procedures</u>' (RAP) will be invoked if the CSC determines that a performance issue exists

Remedial Action Procedures CSC | Customer Standing Committee

- If the CSC determines that a 'systemic problem' exists, it will initiate the Remedial Action Procedure:
 - PTI is obliged to prepare and follow a '<u>Remedial Action Plan</u>'
 - Failure to follow the plan can result in a three level escalation procedure being invoked:
 - PTI board, then
 - ICANN CEO, then
 - ICANN Board
 - If RAP fails to provide remedy CSC hands over to ccNSO and GNSO (Councils)
- The RAPs were approved in March 2018 while small changes were approved in January 2019
- To date **NO** Remedial Action Procedure has been initiated

2nd CSC Effectiveness review CSC | Customer Additional Topics

- (Limited) CSC role should not be expanded
- Regular review of the IANA Naming Function SLAs would be appropriate
 - Ensure SLAs remain current and relevant
 - Currently no one is responsible for initiating and managing a SLA review process
 - •
 - Gap between the performance of PTI that is measured through SLAs and the results of the Customer survey
