

Cover Note

.手机 (xn—kput3i)

Dear ICANN,

The cover note hereof is to describe the purpose of the proposed changes of RRA of xn—kput3i by Beijing RITT - Net Technology Development Co., Ltd, a China-based corporation.

There are altogether 4 proposed changes in RRA as follows:

Firstly, it is our sincere hope to **adjust** the initial registration and renewal **fees** from 18 dollars to 100 dollars with the aim to keep up with the status quo of China's domain name market and to provide registrants with better services. We wish the new price will be effective from Jan 1st, 2017.

Secondly, we wish to update the **address** from “Rm1502, Building B of CEC Plaza No.3 Danling Street, Haidian District, Beijing 100080, China” to “Building No. 13, North Olympic Industrial Base (Xinghua Industrial Park), Baosheng South Road, Haidian District, Beijing 100192, China” for the reason that we have moved to the latter address. Address changes appear in 2 places in RRA: One is the first paragraph of RRA; the other is in Section 10.2.

Thirdly, **attention** in **Section 10.2** is hoped to be changed from VP to Xiaoguang Jin in order to specify the information.

Lastly, it is hoped to change “4.5” to “4.4” for 4.5 was a mistaken typo

that should have been 4.4.

Please see the enclosed proposed version of RRA of xn—kput3i.

Looking forward to your favorable reply!

Yours sincerely,

Beijing RITT - Net Technology Development Co., Ltd

June 17th, 2016
