- k. "Registered Name" refers to a domain name within the domain of the Registry TLD, about which the Registry maintains data in a registry database, arranges for such maintenance, or derives revenue from such maintenance. - m. "Registry TLD" means the .BAYERN TLD.
- n. "SRS" refers to the Shared Registry System operated by the Registry for registration of Registered Names by multiple Registrars in the Registry TLD.
- o. "Inter-Registrar Transfer Policy" refers to ICANN's Inter-Registrar Transfer Policy and is incorporated by reference herein.

2. Obligations of the Parties

- a. SRS Operation and Access. Throughout the Term of this Agreement, the Registry shall operate the SRS and provide the Registrar with access to the SRS to transmit domain name registration information for the Registry TLD to the SRS. Nothing in this Agreement entitles the Registrar to enforce any agreement between the Registry and ICANN.
- b. Maintenance of Registrations Sponsored by the Registrar. Subject to the provisions of this Agreement, ICANN requirements, and Registry requirements including, without limitation, those authorized by ICANN, the Registry shall maintain the registrations of Registered Names sponsored by the Registrar in the Shared Registry System during the term for which the Registrar has paid the fees required by Section 5 ("Fees").
- c. Distribution of EPP, APIs and Software. No later than three Business Days after the Effective Date of this Agreement, the Registry shall make available to the Registrar: (i) full documentation of the Supported Protocol, (ii) application program interfaces ("APIs") to the Supported Protocol with documentation, and (iii) Registrar Toolkits (RTKT) that will allow the Registrar to connect via EPP to the SRS to register second-level domain names through the SRS for the Registry TLD. If the Registry elects to modify or upgrade the APIs and/or Supported Protocol, the Registry shall provide updated APIs to the Supported Protocol with documentation to the Registrar promptly as such updates become available. Unless the circumstances require a shorter time frame (such as due to ICANN mandated policies, emergency maintenance or changes needed to ensure the security and stability of the system), the Registry will provide not less than ninety (90) days prior written notice to Registrar to implement such API updates.

Registry-Registrar Agreement

- d. Registrar Responsibility for Customer Support. The Registrar shall provide (i) support to accept orders for registration, cancellation, modification, renewal, deletion, redemption, or transfer of Registered Names and (ii) customer service (including domain name record support), billing, and technical support to Registered Name Holders (also sometimes referred to herein as "Registrants"). The Registrar shall, consistent with ICANN policy, provide to Registered Name Holders emergency contact or 24/7 support information for critical situations such as domain name hijacking.
- e. Data Submission Requirements. As part of its registration and sponsorship of Registered Names in the Registry TLD, the Registrar shall submit complete data as required by technical specifications of the SRS that are made available to the Registrar from time to time. The Registrar shall submit any corrections or updates from a Registered Name Holder relating to the registration information for a Registered Name to the Registry in a timely manner.
- f. License. The Registrar grants the Registry a non-exclusive, royalty-free, non-transferable, worldwide limited license to the data elements consisting of the Registered Name, the IP addresses of Name Servers, the identity of the registering Registrar, and other data required or permitted by technical specifications of the SRS as made available to the Registrar by the Registry from time to time or as required by ICANN for propagation and the provision of authorized access to the TLD zone files, or as otherwise required or permitted by the Registry's Registry Agreement with ICANN concerning the operation of the Registry TLD, as may be amended from time to time.
- g. Registrar's Registration Agreement and submission to policies. The Registrar shall have in effect an electronic or paper registration agreement with the Registered Name Holder which shall at all times incorporate or provide a link to the terms of the .BAYERN Registry Policies and no terms that are contrary to or inconsistent with the .BAYERN Registry Policies. The Registrar shall provide a copy of the Registrar's registration agreement upon request for same by the Registry. The Registrar shall include in its registration agreement those terms required by this Agreement, other terms that are requested by the Registry that are consistent with the Registrar's obligations to the Registry under this Agreement, and the consent of each registrant for the collection and use of their personal data by the Registry and by ICANN for such purposes as the Registry is required contractually to use the data. The Registrar shall employ in its domain name registration agreement a requirement for the Registered Name Holders to submit to the ICANN Policies including the Inter-Registrar Transfer Policy, Uniform Domain Name Dispute Resolution Policy (UDRP), and the Uniform Rapid Suspension (URS), and the .BAYERN Registry Policies, each in their most recent form and each as may be amended from time to time. In its registration agreement with each Registered Name Holder, the Registrar shall require such Registered Name Holder to:
- i. acknowledge and agree that the Registry reserves the right to deny, cancel or transfer any registration or transaction, or place any domain name(s) on registry lock, hold, or similar status as it deems necessary, in its unlimited and sole discretion: (1) to comply with specifications adopted by any industry group generally recognized as authoritative with respect to the Internet (e.g. RFCs), (2) to correct mistakes made by the Registry or any Registrar in connection with a domain name registration, or (3) if required by a URS or UDRP, proceeding; (4) under the terms of the .BAYERN Registry Policies; (4) for the non-payment of fees to the Registry;

Registry-Registrar Agreement

- ii. indemnify, defend and hold harmless the Registry and its subcontractors, and its and their directors, officers, employees, agents, and affiliates from and against any and all claims, damages, liabilities, costs and expenses, including reasonable legal fees according to the Rechtsanwaltsvergütungsgesetz (RVG) or any other legislation or regulation that may be force at the time and expenses arising out of or relating to, for any reason whatsoever, the Registered Name Holder's domain name registration. The Registrar's registration agreement shall further require that this indemnification obligation survive the termination or expiration of the registration agreement; and
- iii. acknowledge and agree that they (the Registered Name Holder) are prohibited from distributing malware, abusively operating botnets, phishing, piracy, trademark or copyright infringement, fraudulent or deceptive practices, counterfeiting or otherwise engaging in activity contrary to applicable law, and that evidence of any such activity by the Registered Name Holder may result in application by the Registry or Registrar of consequences (consistent with applicable law and any related procedures) including suspension of the domain name.

The Registrar shall comply with its obligations under the .BAYERN Registry Policies and any breach by the Registrar of the terms of the .BAYERN Registry Policies shall be a breach of this Agreement.

If a Registrant is in breach of any term of the .BAYERN Registry Policies, the Registry is entitled (and without prejudice to the Registry's ability to take such steps as it considers appropriate pursuant to the .BAYERN Registry Policies) to instruct the Registrar to exercise any of the powers granted to the Registrar pursuant to the .BAYERN Registry Policies. Whether and to what extent the Registry instructs the Registrar to exercise any such power is a matter that the Registry may decide in its absolute discretion, but insofar as it is reasonably possible to do so it shall consult with the Registrar before issuing any such instruction to the Registrar.

h. URS High-Level Technical Requirements. In addition to any other requirement under the URS, the Registrar must accept and process payments for the renewal of a domain name by an eligible, validated URS Complainant in cases where the URS Complainant prevailed. The Registrar must not renew a domain name for longer than a year to a URS Complainant who has prevailed. In addition, the Registrar must agree to abide by any other rights protection mechanisms required by ICANN including any such listed in Specification 7 of the public Registry Agreement, including any amendments to the Registry Agreement or to Specification

- i. Secure Connection. The Registrar agrees to develop and employ in its domain name registration business all necessary technology and restrictions to ensure that its connection to the SRS is secure. All data exchanged between the Registrar's system and the SRS shall be protected to avoid unintended disclosure of information. The Registrar shall employ commercially reasonable measures to prevent its access to the Registry System granted hereunder from being used to (1) allow, enable, or otherwise support the transmission by email, telephone, or facsimile of mass unsolicited, commercial advertising or solicitations to entities other than its own existing customers; or (2) enable high volume, automated, electronic processes that send queries or data to the systems of the Registry, any other registry operated under an agreement with ICANN, or any ICANN-accredited the Registrar, except as reasonably necessary to register domain names or modify existing registrations.

Registry-Registrar Agreement

Each EPP session shall be authenticated and encrypted using two-way secure socket layer ("SSL") protocol. The Registrar agrees to authenticate every EPP client connection with the SRS using both (i) a server certificate issued by a mutually-agreed commercial Certification Authority and (ii) its Registrar password, which it shall disclose only to its employees with a need to know. The Registrar agrees to notify the Registry within four (4) hours of learning that its Registrar password has been compromised in any way or if its server certificate has been revoked by the issuing Certification Authority or compromised in any way.

Upon not less than ninety (90) days prior written notification (unless shorter notice is required in exceptional circumstances, such as changes are needed to ensure the security and stability of the system), to the Registrar, the Registry may require other industry standard security provisions, practices or technology to ensure that the Registry System is secure and stable, which the Registry may adopt from time to time in its sole and complete discretion. If the Registrar fails to comply with the Registry's standards, the Registry will provide the Registrar a 30 (thirty) day compliance notice. Failure to comply at the end of such period will be considered a material breach of this Agreement.

Additionally, the Registrar must ensure that access to Registrant accounts is adequately protected, at a minimum, by secure log-in process that requires username and password authentication and the Registrar must comply with all other security related ICANN Registrar accreditation requirements.

The Registrar shall not provide identical Registrar-generated authorization (<authinfo>) codes for domain names registered by different Registrants with the same Registrar. The Registry in its sole discretion may choose to modify <authinfo> codes for a given domain and shall notify the sponsoring Registrar of such modifications via EPP compliant mechanisms (i.e., EPP<poll> or EPP<domain:Info>). The Registry will use reasonable efforts to implement a system to ensure the notifications of such modifications to be made in 300 seconds. Documentation of these mechanisms shall be made available to the Registrar by the Registry. The Registrar shall provide the Registered Name Holder with timely access to the authorization code along with the ability to modify the authorization code; the Registrar shall respond to any inquiry by a Registered Name Holder regarding access to and/or modification of an authorization code within five (5) calendar days.

- j. Handling of Personal Data. The Registry shall notify the Registrar of the purposes for which Personal Data submitted to the Registry by the Registrar is collected, the intended recipients (or categories of recipients) of such Personal Data, and the mechanism for access to and correction of such Personal Data. The Registry shall take reasonable steps to protect Personal Data from loss, misuse, unauthorized disclosure, alteration or destruction. The Registry shall not use or authorize the use of Personal Data in a way that is incompatible with the notice provided to the Registrars. The Registry may from time to time use the demographic data collected for statistical analysis, provided that this analysis will not disclose individual Personal Data and provided that such use is compatible with the notice provided to the Registrars regarding the purpose and procedures for such use.
- k. Domain Name Lookup Capability. The Registrar agrees to employ in its domain name registration business the Registry's domain directory service (Whois) registry domain

Registry-Registrar Agreement

name lookup capability to determine if a requested domain name is already registered and, if so, to retrieve the publicly available data regarding this domain name. The Registrar also agrees, at its expense, to provide an interactive web page and a port 43 Whois service providing free public query-based access to up-to-date (i.e., updated at least daily) data concerning all active Registered Names sponsored by the Registrar for the Registry TLD. The Registrar's obligation under this clause shall consist of, and be subject to, elements that are designated from time to time according to any ICANN-adopted specification or policy or the Registrar Accreditation Agreement between the Registrar and ICANN.

- i. Privacy and Proxy Services. The Registrar agrees to comply with the requirements of the 2013 RAA or future consensus policies defining requirements for privacy and proxy services.
- m. Transfer of Sponsorship of Registrations. The Registrar agrees to implement transfers of Registered Name registrations from another Registrar to the Registrar and *vice versa* pursuant to the Inter-Registrar Transfer Policy as may be amended from time to time by ICANN.
- n. Time. The Registrar agrees that, in the event of any dispute concerning the time of the entry of a domain name registration into the Registry database, the time shown in the Registry records shall be determinative.
- o. Compliance with Operational Requirements. The Registrar shall comply with each of the following requirements, and further shall include in its registration agreement with each Registered Name Holder, as applicable, an obligation for such Registered Name Holder to comply with each of the following requirements:
 - i. ICANN standards, policies, procedures, and practices for which the Registry has monitoring responsibility in accordance with the Registry Agreement or other arrangement with ICANN; and
 - ii. Operational standards, policies, procedures, and practices for the Registry TLD established from time to time by the Registry in a non-arbitrary manner and applicable to all Registrars ("Operational Requirements"), including affiliates of the Registry, and consistent with the Registry's Registry Agreement with ICANN, as applicable, upon the Registry's notification to the Registrar of the establishment of those terms and conditions. Unless shorter notice is deemed necessary by the Registry in exceptional circumstances, additional or revised Operational Requirements shall be effective upon ninety (90) days notice by the Registry to the Registrar.
- p. Resolution of Technical Problems or Breach of Agreement. The Registrar agrees to employ necessary employees, contractors, or agents with sufficient technical training and experience to respond to and fix all technical problems concerning the use of the Supported Protocol, the APIs, and the Registry's SRS in conjunction with the Registrar's systems. The Registrar agrees that, in the event of significant degradation of the SRS or other emergency, or upon the Registrar's violation of Operational Requirements or breach of this Agreement, the Registry may, in its sole discretion, temporarily suspend or restrict access to the SRS. Such temporary suspensions or restrictions shall be applied

Registry-Registrar Agreement

in a non-arbitrary manner and shall apply fairly to any Registrar similarly situated, including affiliates of the Registry.

- q. Prohibited Domain Name Registrations. In addition to complying with ICANN standards, policies, procedures, and practices limiting domain names that may be registered, the Registrar agrees to comply with applicable statutes and regulations limiting the domain names that may be registered, as well as the Registry's Policies including the Acceptable Use Policy and Naming Policy, as may be amended from time to time by the Registry at its sole discretion.
- r. ICANN Requirements. The Registry's obligations hereunder are subject to modification at any time as the result of ICANN-mandated requirements and ICANN Consensus Policies. Notwithstanding anything in this Agreement to the contrary, the Registrar shall comply with any such ICANN requirements in accordance with the timeline defined by ICANN.
- s. Accredited Registrar. During the term of this Agreement, the Registrar shall maintain in full force and effect its accreditation by ICANN as a Registrar for the Registry TLD under the 2013 Registrar Accreditation Agreement or any subsequent version thereof.
- t. The Registrar knows and accepts that the Registry reserves certain domain names that will not be available for public registration, i.e. domain names that correspond with names and notations of municipalities and/or governmental organisations of the Federal State of Bavaria. The Registrar can choose to participate in this process and register those domain names for the corresponding municipalities and/or governmental organisation at no cost on request. The request of the municipality or governmental organisation will include proof of authenticity and authority to oblige the Registrant to register the domain name. The option to provide free registrations is limited to a two-year registration period per domain name. After this term the Registry and the respective Government will join in negotiations concerning the future registration fees of such domain names.

3. License

- a. License Grant. Subject to the terms and conditions of this Agreement, the Registry hereby grants the Registrar and the Registrar accepts a non-exclusive, royalty-free, non-transferable, worldwide limited license to use for the Term and purposes of this Agreement the Licensed Product, as well as updates and redesigns thereof, to provide domain name registration services in the Registry TLD only and for no other purpose. The Licensed Product, as well as updates and redesigns thereof, will enable the Registrar to register domain names in the Registry TLD with the Registry on behalf of its Registered Name Holders. The Registrar, using the Licensed Product, as well as updates and redesigns thereof, will be able to invoke the following operations on the SRS: (i) check the availability of a domain name, (ii) register a domain name, (iii) renew a domain name, (iv) cancel the registration of a domain name it has registered, (v) update the NameServers of a domain name, (vi) transfer a domain name from another Registrar to itself with proper authorization (or *vice versa*), (vii) redeem a domain name, (viii) query a domain name registration record, (ix) register a NameServer, (x) update the IP addresses of a NameServer, (xi) delete a NameServer, (xii) query a NameServer, and (xiii) establish and end an authenticated session.

Registry-Registrar Agreement

- b. Limitations on Use. Notwithstanding any other provisions in this Agreement, except with the prior written consent of the Registry, the Registrar shall not: (i) sublicense the Licensed Product or otherwise permit any use of the Licensed Product by or for the benefit of any party other than the Registrar, (ii) publish, distribute or permit disclosure of the Licensed Product other than to employees, contractors, and agents of the Registrar for use in the Registrar's domain name registration business, (iii) decompile, reverse engineer, copy or re-engineer the Licensed Product for any unauthorized purpose, unless expressly allowed by the applicable law, (iv) use or permit use of the Licensed Product in violation of the laws of Germany, or any other applicable local rule, regulation or law, or for any unlawful purpose. The Registrar agrees to employ the necessary measures to prevent its access to the SRS granted hereunder from being used to (i) allow, enable, or otherwise support the transmission by email, telephone, or facsimile of mass unsolicited, commercial advertising or solicitations to entities other than the Registrar's customers; or (ii) enable high volume, automated, electronic processes that send queries or data to the SRS of the Registry or any ICANN-Accredited Registrar, except as reasonably necessary to register domain names or modify existing registrations.
- c. Changes to Licensed Materials. The Registry may from time to time replace or make modifications to the Licensed Product licensed hereunder. Unless circumstances require a shorter notice period, the Registry will provide the Registrar with not less than ninety (90) days prior written notice to implement such modifications. If additional time is required, the Parties will agree to a mutually acceptable time frame. The license granted in clause 3.a shall apply to such changed or modified materials.

4. Support Services

- a. Engineering Support. The Registry agrees to provide the Registrar with reasonable Registrar Liaison telephone and email support (between the hours of 9 a.m. and 5 p.m. GMT or at such other times as may be mutually agreed upon) to address issues arising in connection with the Registrar's use of the SRS.
- b. Customer Service Support. During the Term of this Agreement, the Registry will provide customer service support to the Registrar at the service levels set by ICANN, and will not provide any customer service support to Registered Name Holder or prospective customers of the Registrar, for nontechnical issues solely relating to the SRS and its operation. The Registry may provide additional levels of customer service support to the Registrar at its sole discretion. The Registry will provide the Registrar with a telephone number and email address for such support during implementation of the Supported Protocol, APIs, and Software. First-level telephone support will be available on a 7-day/24-hour basis.

5. Fees

a. Registration Fees.

- i. The Registrar agrees to pay the Registry all non-refundable fees for initial and renewal registrations and other services provided by the Registry (collectively, the "Registration Fees").

B) For all registered domains - renewal rate decrease (domain:renew)	60 days
C) For all registered domains - renewal rate increase (domain:renew)	180 Days
2) A subset of domains within a tier:	
A) A tier assignment increase or decrease for unregistered domains – i.e., the moving of a subset of unregistered domains from one tier to another tier	30 days

The Registrar may be required to fund a Registrar Payment Account ("RPA") with the Registry from which its Registration Fees for any transaction will be debited immediately and to which credits, if any, due the Registrar will be refunded. In the event that the Registrar's RPA does not have sufficient funds to immediately pay a Registration Fee, then the Registry may, at its sole discretion, suspend the Registrar and registrations will not be accepted until the Registrar's RPA is replenished with sufficient funds to pay the Registration Fees for its submitted transactions. Credit may be granted in the registry's sole discretion.

hardware shall be borne by the Registrar and shall not be considered a part of, a deduction from or an offset against such Registration Fees. All payments due to the Registry shall be made without any deduction or withholding on account of any tax, duty, charge or penalty except as required by law, in which case, the sum payable by the Registrar from which such deduction or withholding is to be made shall be increased to the extent necessary to ensure that, after making such deduction or withholding, the Registry receives and retains (free from any liability with respect thereof) a net sum equal to the sum it would have received but for such deduction or withholding being required.

- b. Change in Registrar Sponsoring Domain Name. The Registrar may assume sponsorship of a Registered Name Holder's existing domain name registration from another Registrar by following the Inter-Registrar Transfer Policy.
- i. For each transfer of the sponsorship of a domain-name registration under the Inter-Registrar Transfer Policy, the Registrar agrees to pay the Registry the renewal registration fee associated with a one-year extension. The losing Registrar's Registration Fees will not be refunded as a result of any such transfer; or

- c. Charges for ICANN Fees. The Registry will immediately debit the Registrar's RPA or account for any variable registry-level fees paid or to be paid by the Registry to ICANN relating to the Registrar and the Registrar's transactions. The fee will consist of two components; each component will be calculated by ICANN for each the Registrar:
- i. The transactional component of the Variable Registry-Level Fee shall be specified by ICANN in accordance with the budget adopted by the ICANN Board of Directors for each fiscal year.
 - ii. The per-Registrar component of the Variable Registry-Level Fee shall be specified by ICANN in accordance with the budget adopted by the ICANN Board of Directors for each fiscal year.
- d. Non-Payment of Fees. Timely payment of fees owing under this Section 5 is a material condition of performance under this Agreement. In the event that the Registrar fails to adequately fund its RPA or fails to pay its Registration Fees in a timely manner, the Registry will issue a 15-day notice to the Registrar requesting the payment for all outstanding invoices. If, by the end of the notice period, all invoices remain unpaid, the Registry may, at its sole discretion:
- i. stop accepting new initial or renewal registrations from the Registrar;
 - ii. suspend the domain names associated with invoices not paid in full, and delete such domain names from the Registry database if such the invoice remains unpaid after thirty (30) additional days ;

6. Miscellaneous

- a. Right to Amend the Terms of this Agreement. The Registry shall be entitled to amend or revise the terms of this Agreement provided that such amendments or revisions have been approved or adopted by ICANN pursuant to the Registry's Registry Agreement with ICANN and upon the Registry giving the Registrar thirty (30) calendar days' notice of that amendment. Subject to the Registrar's right to terminate pursuant to Section 6(b)(ii), the Registrar shall have thirty (30) calendar days from the date of notice of any such amendment or revisions to execute an agreement putting the approved amendments or revisions into effect.
- b. Term of Agreement and Termination.
 - i. Term of the Agreement. The duties and obligations of the Parties under this Agreement shall apply from the Effective Date through and including the last day of the calendar month sixty (60) months from the Effective Date (the "Initial Term"). Upon conclusion of the Initial Term, all provisions of this Agreement will automatically renew for successive five (5) year renewal periods until the Agreement has been terminated as provided herein, the Registrar elects not to renew, or the Registry ceases to operate the registry for the Registry TLD.
 - ii. Termination where Revision. In the event that an amendment or revision to this Agreement is approved or adopted by ICANN, and 30 calendar days' notice of the same is given to the Registry pursuant to Section 6(a), the Registrar may, at its option exercised within such thirty (30) day period, terminate this Agreement immediately by giving written notice to the Registry; provided, however, that in the event the Registry does not receive such executed amendment or notice of termination from the Registrar within such thirty (30) day period of the date of the notice, the Registrar shall be deemed to have executed such amendment as of the thirty-first (31st) day after the date of the notice.

 - iv. Termination at Option of Registrar. The Registrar may terminate this Agreement at any time by giving the Registry thirty (30) calendar days prior written notice of termination.
 - v. Termination Upon Loss of Registrar's Accreditation. This Agreement shall terminate in the event the Registrar's accreditation for the Registry TLD by ICANN, or its successor, is terminated or expires without renewal.

- vi. Termination in the Event that Successor Registry Operator is Named. This Agreement shall terminate in the event that ICANN, as appropriate, designates another entity to operate the registry for the Registry TLD.
- u. Effect of Termination. Upon expiration or termination of this Agreement, the Registry will, to the extent it has the authority to do so, complete the registration of all domain names processed by the Registrar prior to the date of such expiration or termination, provided that the Registrar's payments to the Registry for Registration Fees are current and timely. Immediately upon any expiration or termination of this Agreement, the Registrar shall (i) transfer its sponsorship of Registered Name registrations to another licensed Registrar(s) of the Registry, in compliance with Part B of the Inter-Registrar Transfer Policy, or any other procedures established or approved by ICANN, and (ii) either return to the Registry or certify to the Registry the destruction of all data, software, documentation, and Confidential Information it has received under this Agreement. In the event of termination, the Registry reserves the right to immediately contact any and all Registered Name Holders to facilitate the orderly and stable transition of Registered Name Holders to other ICANN-accredited the Registrars. All fees owing to the Registry shall become immediately due and payable.
