

Dear ICANN

As discussed with Aysegul Tekce, Global Registry Services Limited has been appointed, in place of Famous Four Media Limited, as the outsourced services provider to the Registry. Therefore, whilst the RRAs already signed are technically all with the Registry by FFM only as agent, FFM did execute those and its outdated contact details are present. The attached RRA update therefore:

1. Restates the old data protection policy which was redundant following the publication of the Temporary Specification for gTLD registration data, and includes new ICANN mandated wording at Exhibit C
2. Changes contact details throughout.

The change of RRA applies to the following registries and top level domains:

Premier Registry Limited (.racing), dot Cricket Limited (.cricket), dot Review Limited (.review), dot Support Limited (.support), Exclusive Registry Limited (.men), Blue Sky Registry Limited (.party), Elite Registry Limited (.trade), dot Date Limited (.date), dot Loan Limited (.loan), First Registry Limited (.win), dot Bid Limited (.bid), dot Faith Limited (.faith), dot Webcam Limited (.webcam), dot Accountant Limited (.accountant), dot Science Limited (.science) and dot Stream Limited (.stream)

Kind Regards,
GRS Team
