

22 June 2022

Dear ICANN,

Please find attached to this case a redline version of the .eco Registry-Registrar Agreement.

The purpose of this amendment is to make a number of administrative updates, remove sunrise-related policy elements which are no longer relevant, and make various typographical corrections.

Thank you for your review of these changes. We look forward to receiving your determination and subsequently circulating to our registrars.

Sincerely,

A handwritten signature in blue ink, appearing to read 'T~BL.' with a tilde symbol between the letters.

Trevor Bowden
