Re: Registry-Registrar Agreement Amendment

Radix FZC DMCC is hereby requesting ICANN approval for amendment of its Registry Registrar Agreements for all ten (10) of its top-level domains (.Fun, .Host, .Space, .Press, .Website, .Site, .Online, .Tech, .Store, and .Uno). The primary purpose of the amendment is to update the RRA for the new company name and contact details. Additionally the amendment replaces the name of the back-end registry service provider with the general term "Registry Service Provider".

Attached are the proposed, red-lined Registry-Registrar Agreements for ICANN's review.

Sincerely,

A handwritten signature in black ink, appearing to read "Sandeep Ramchandani", with a stylized flourish at the end.
