Dear ICANN,

It has come to our attention by ICANN's audit committee that the Registry-Registrar Agreement (RRA) we use is missing specific language around the updated URS guidelines. Having said that please find attached our updated "Vegas Master RRA" for your review and approval. Please note the only section affected is section 3.13 URS. Specifically, section 3.13.2 where we had to add additional language. The language in red is the only thing being added as it pertains to this update. Secondly this language is the language I received directly from the ICANN audit committee. That is the only change being made.

Should you have any questions please contact Dusty Trevino directly by phone at #702-366-9969 or by email at dusty@the.vegas

Thank you for your understanding on this matter.

Sincerely,

Dusty Trevino
